Important to remember

Here are some tips to help you get the most out of your DeltaVision benefits:

- When the benefit includes an allowance, you are responsible for charges over that allowance in addition to the applicable copay.
- When you visit an in-network provider, you are responsible for your exam copay at the time of your visit and any applicable materials copay(s) at the time of your purchase.
- If you use an out-of-network provider, you must pay the full cost of the services provided at the time they are received. Submit your claim to DeltaVision within 12 months of the date of service for reimbursement. You will be reimbursed the lesser of the provider's charge or the amount shown.
- Exam and material frequencies will restart at the beginning of each calendar year.

Contact lens fit and follow-up

The contact lens fit and follow-up is a specific exam for the proper fitting of contact lenses. DeltaVision offers a separate allowance that enables members to maximize the value of their contact lens allowance.

Contact lens fit and follow-up

This fitting is for contact lens users to learn the correct way to wear contact lenses. The contact lens fit and follow-up offers an in-network allowance of up to \$40 depending on the plan selected and includes two follow-up visits. Copays do not apply.

The value of a separate allowance for contact lens fit and follow-up

The contact lens allowance is valuable because the fit and follow-up is not deducted from the allowance amount. Many other plans deduct these costs from the overall contact lens allowance. Additionally, a member may be fitted for contact lenses without utilizing the contact lens material benefit and may still receive a covered pair of glasses during the same benefit period.

Contact lens fit and follow-up comparison*

	DeltaVision plans With contact lens fit and follow-up benefit	Other vision plan Without contact lens fit and follow-up benefit
Contact lens allowance*	\$150	\$150
Cost of fit and follow-up exam*	— \$0 (after \$40 allowance)	— \$40
Remaining contact lens allowance	\$150	\$110
Cost of contacts*	— \$150	— \$150
Out of pocket costs	\$0	\$40

* Examples are based on the following assumptions: Cost of annual contact lenses = \$150, Contact lens fitting = \$40, Contact lens allowance = \$150
